PROSPECT
RECRUITMENT

Established in 1975

### BUSINESS ANALYTICS CONSULTANCY
**Packages £45,000 - £100,000**

Enviable opportunities, ranging from Consultant to Managing Consultant level, with two leading consulting firms seeking motivated professionals for project activities such as: customer insight, pricing strategy, marketing analysis, web analytics, forecasting, optimisation and yield management. Candidates will need demonstrably relevant experience, underpinned by academic excellence, genuine business awareness and a goal oriented approach. **Central London based**

### MODELLING CONSULTANCY
**Packages £30,000 - £65,000**

Our Big 4 consultancy client's OR team seeks additional professionals able offer proven modelling achievement, underpinned by excellent academic credentials and well developed interpersonal skills. Specific expertise in OO model development such as VB.Net, C++, C# would be advantageous, but is not essential. Significant project variety will include economic modelling, forecasting, simulation, system dynamics and optimisation. **Central London based**

### FINANCIAL MODELLING CONSULTANCY
**£60,000 - £110,000 Package**

This fast growing boutique consultancy advises clients on insightful business planning, forecasting, cash flow management, business restructuring and transaction modelling. Growth in demand is now prompting them to seek an additional professional, at either consultant or manager level, offering a proven financial modelling track record, supported by academic, technical and interpersonal excellence plus, ideally, qualifications such as ACA/CIMA. **London**

### eCOMMERCE ANALYST
**c£45,000 – £50,000+ plus Benefits**

Working on performance optimisation for online customers and for the successful delivery of new products, you will have a demonstrable data extraction-to-recommendation lifecycle track record (e.g. Access, SQL etc) with advanced Excel modelling skills, supported by proven statistical analysis experience. Previous online retail exposure is not essential, however evident intellectual curiosity and commercial awareness are pre-requisites. **London**

### MEDIA ANALYTICS
**c£35,000 + Benefits**

An established market leader with a commitment to leading media change is seeking a strong quantitative analyst to join their advertising sales and operations team. Proven analytical and Excel model building ability, supported by impressive academic credentials, is essential, with experience gained in a pricing, yield or revenue optimisation environment, plus enthusiasm for online media, being key selection criteria. **London**

### CREDIT RISK MODELLERS
**£40,000 - £60,000 plus Benefits**

Our client, a well-respected risk consultancy with an established business modelling presence across a number of high profile clients, is looking to augment their credit and fraud risk capability. Demonstrable statistical modelling ability, from a multi-product Basel UK based financial services company, coupled with strong stakeholder facing aptitude would be vital criteria for this enviable position. **UK Wide Travel**

With over 30 years of specialist market knowledge, Prospect is uniquely positioned at the forefront of Operational Research and related areas.

- Marketing Analysis

### HEAD OF YIELD ANALYSIS
**£Competitive**

Providing insight and critical analysis on trading performance in order to develop, implement and monitor strategies for improvement, you will be responsible for drilling into and synthesising large data sets with sophisticated analytical techniques. The successful candidate will have proven experience from within a similar role, advanced skills with a range of analytical tools (Excel, VBA, SQL and/or Oracle) in addition to advanced analytical techniques such as regression analysis and commercial acumen of the highest level. **Peterborough**

### RISK MODELLING CONSULTANTS
**£30,000 - £70,000**

As the world's leader in catastrophe risk modelling, our client continues to grow and diversify. Current recruitment needs are for a high calibre consultant or senior consultant, with proven catastrophe modelling experience, either gained in a consulting or insurance environment. A good science/numerate degree, sound technical skills and well developed consulting and stakeholder influencing capabilities are essential. **London**

### MANAGEMENT CONSULTANT
**£40,000 - £60,000**

As a consequence of continued business success, this expanding consultancy is seeking a Senior Consultant to join their dynamic Management Consultancy team. With a minimum of 4 years experience from within a professional services environment, the successful applicant will have broad sector experience to include retail and/or financial services and the ability to lead, manage, and deliver profitable project engagements. Knowledge of analytical tools and processes and Data/CRM Consultancy experience is also essential. **London**

### ACTUARIAL/RISK STATISTICIAN
**To c£55,000 + Benefits**

A leading provider of risk, savings and investment management products has an exciting opportunity to join their successful, and highly respected, Longevity Risk Team. The role would suit a qualified Statistician (statistics degree or RSS/other accredited qualification), with at least 3 years relevant experience in a commercial setting such as insurance or pharmaceutical preferably including propensity modelling. Proficiency in SAS or other statistical package required. **Surrey**

### ANALYTICS CONSULTANCY – SAS
**£45,000 - £80,000 Negotiable**

Exciting opportunities to join a newly established centre of Analytical Innovation based in Dublin. The core of the Innovation centre is the extensive use of data, statistical and quantitative analysis, exploratory and predictive models, and fact based management to drive decisions and actions. Advanced analytic skills i.e. statistical analysis, predictive analytics, data mining required – must be commercially driven; fraud and customer insight experience useful. SAS or similar package essential. **Dublin**

### CORPORATE MODELLING MANAGER-SAS
**£Competitive Package**

Our client is one of the most comprehensive and successful insurance comparison services in the UK. At an exciting time of continued growth this is an excellent opportunity to join a newly formed Analytical Team. Previous experience of successfully managing model building or statistical teams is essential, as is good commercial awareness to effectively analyse, forecast, model and interpret reports/analysis to the business. SAS essential. Prior experience in Marketing and/or Customer Management beneficial. **Newport, Gwent**
